Please join AES for a Community Meeting regarding the Sugar Maple Solar Project, a proposed 80 MW solar energy generation project with a 20 MW battery energy storage component. The Sugar Maple Solar Project is proposed to be located in the Towns of Wilna in Jefferson County and Croghan in Lewis County.

At the Community Meeting, informational display boards will be set up around the room with project representatives available to provide information and answer questions about the Sugar Maple Project and the Article VIII (formerly Section 94-c) permitting process, the date AES anticipates applying for a Siting Permit for the Sugar Maple Project, and the availability of local agency account funding to community groups, including how and when to access available funding. Community members and other stakeholders are invited to drop in between 5:00 PM and 7:00 PM. There will not be a formal presentation.
